

CHEN-YU HU

Demand Planning & Supply Chain Professional | Forecasting, S&OP & Inventory Optimization

+65 8812 9559 | asacyhu@gmail.com | [LinkedIn](#)

PROFESSIONAL SUMMARY

Supply chain professional with hands-on experience in demand forecasting, S&OP, inventory planning, and cross-functional stakeholder management across e-commerce, retail, and Amazon 3P marketplace environments. Skilled at new launch forecast alignment, root-cause analysis of forecast inaccuracy, and assortment/slow-moving stock management using SAP-integrated ERP systems, SQL, and advanced Excel. Holds a Master of Management specializing in Logistics and Supply Chain Management. Singapore-based, bilingual in Mandarin and English, and comfortable operating in fast-paced, matrixed organizations.

PROFESSIONAL EXPERIENCE

Independent Field Research — Taiwan Food Delivery Market

Singapore

Self-Initiated Commercial Research Project | May 2026 – Present

- Investigated account-level pain points in merchant-platform relationships — including commission structures, dispute resolution, and regional demand patterns — through independent field research with food merchants and delivery riders across Taiwan during a major industry acquisition.
- Validated frontline findings against financial analysis of GMV, EBITDA, and segment margins to quantify the commercial impact of merchant dissatisfaction on platform economics.
- Built a 30/60/90 action framework covering merchant engagement, issue resolution, and process improvements for underserved account segments; **findings were recognized by a C-level executive and referred onward internally.**

Hour Loop Inc. (NASDAQ: HOUR)

Taiwan

Assistant Business Manager — Amazon 3P Brand Account Management | Mar 2022 – Jan 2023

- Owned end-to-end demand forecasting, S&OP, and inventory planning for a portfolio of U.S. brand partners on Amazon Seller Central/FBA, using SAP-integrated ERP and SQL-based sales data to plan replenishment across 1,300+ SKUs.
- Independently sourced, negotiated, and onboarded 7 new U.S. brand vendors within 2 months, aligning new launch forecasts with historical category trends and vendor input to support on-time market entry with minimal stockouts.
- Ran monthly forecast accuracy business reviews, applying root-cause analysis to variance drivers such as seasonality, promotions, and supply delays, and adjusting forecast inputs to improve accuracy by an estimated 12% quarter-over-quarter.
- Translated sales, inventory, and marketplace data into commercial recommendations for brand partners, driving assortment planning and slow-moving stock reduction decisions that cut excess inventory by an estimated 15%.

Decathlon Taiwan

Taiwan

E-commerce Operations Specialist | Jan 2023 – Jun 2023

- Owned demand-supply balance and assortment planning for a portfolio of 5 brands (65,000+ SKUs) within a 59-brand e-commerce operation, tracking sell-through and stock cover to flag replenishment needs on a weekly cycle.
- Conducted root-cause analysis on stock gaps and slow-moving SKUs, using Excel-based trend analysis to prioritize markdown and replenishment actions that reduced aged inventory within managed brands by an estimated 10%.
- Analyzed checkout and customer journey data using Excel PivotTables, VLOOKUP, and data visualization to identify conversion bottlenecks, informing UI/UX process improvements that lifted conversion by an estimated 5% in the affected categories.

Singapore Airlines

Singapore

Cabin Crew — Premium Cabin Service | Jan 2024 – Present

- Resolved high-stakes service escalations for global customers by owning issues end to end and coordinating cross-functionally across cabin and ground teams, converting service failures into recovery outcomes and earning 9 formal customer compliments within 18 months.
- Built rapport with senior and C-level executive passengers through attentive, high-touch, trust-building communication in Mandarin and English, earning direct follow-up contact from C-level leaders on multiple occasions and reflecting an ability to quickly earn trust and credibility with high-value stakeholders.

EDUCATION

Singapore University of Social Sciences

Singapore

Master of Management, Specialization in Logistics and Supply Chain Management (Part-time) — completed while working full-time as a cabin crew member.

National Sun Yat-sen University

Taiwan

Bachelor of Arts, Foreign Languages and Literature
